Time and Attendance, PTO, and Payroll Processing

1 Access Time Data
Give employees 24/7 access to their time cards, pay stubs and PTO balances. Automate time-off requests and management. Let employees self-serve.

2 Clock In On-the-Go
Let employees track time wherever they are, use GPS to verify location, show time card, upcoming schedule, time off, enforce early/late/ break punch rules.

3 Meals & Breaks
Manage and track breaks, ensure compliance with state laws, restrict in/out punches to schedule, notify employees and managers, enable adjustment with audit trail.

4 Always Aware
"Employee-aware" clocks provide only the punch options relevant to an employee's current state. Eliminate missed and early punches with schedule enforcement, track meals and breaks, and transfer departments with job costing.

5 Physical Clocks
Choose from a wide range of time clock with PIN punch, RFID or biometric readers. Eliminate missed and unmatched punches, track jobs, enforce early/late/break rules.

6 Payroll Export
Cut time spent processing payroll, improve productivity, quickly review and approve time cards, export or transfer to payroll. TimeWorksPlus connects to all major payroll services.

Time & Attendance
TimeWorksPlus.

- EMPLOYEE MOBILE ACCESS CLOCK IN/OUT
- BREAKS & MEALS ARE TRACKED
- INTELLIGENT CLOCK FEATURES
- HARDWARE CLOCKS FOR GREATER FUNCTIONALITY
- EXPORT TO PAYROLL
